

## Navigating Recent Scientific Advances in Atopic Dermatitis: Skin Barrier Dysfunction, Dysbiosis, and Itch

Thursday, 16 November 2023 / 08:00–09:30 CET  
Vienna, Austria / Aula der Wissenschaften

Join us for an ADVENT-sponsored symposium  
at **ISDS 2023!**

### FACULTY

**Lisa Beck, MD**  
University of Rochester  
Medical Center, USA

**Robert Bissonnette, MD**  
Innovaderm Research Inc.,  
Canada

**Gil Yosipovitch, MD**  
University of Miami,  
USA

### LEARNING OBJECTIVES

- Review the latest evidence on how type 2 inflammation drives skin barrier dysfunction in atopic dermatitis
- Discuss the evidence illustrating how type 2 inflammation affects the skin microbiome in atopic dermatitis
- Explore the impact of type 2 inflammation in neuroimmune axis dysregulation in atopic dermatitis

### AGENDA

#### Introduction

**Lisa Beck (Chair)**

#### Role of Type 2 Inflammation in Skin Barrier Dysfunction in AD

**Robert Bissonnette**

#### Skin Dysbiosis in AD

**Lisa Beck**

#### The Impact of Type 2 Inflammation on the Neuroimmune Axis in AD

**Gil Yosipovitch**

#### Panel discussion and Q&A

**All Faculty**

ADVENT is an award-winning medical education program developed with clinical experts to advance the understanding of type 2 inflammation
